

Daylight Savings

Daniel and his dad are going on holiday to try to heal their relationship and themselves after the shocking discovery that his mum had been cheating with the local doctor.

Leisure World Complex doesn't offer a huge lot of thrills to Daniel, but he understands why his dad needs the chance of the break, but when his dad continues drinking on their retreat Daniel finds it easier to cope by jumping on his bike and exploring the complex.

It's not long before he meets Lexi, the mysterious girl he saw when they'd arrived, and her story drags him into the whirlpool of mystery surrounding her. He's got a tough decision to make. Should he step back from Lexi's story and leave well alone or should he help uncover the terrible truth, even if it puts him in great danger...

Leisure World has a big disco every year with the theme "Turn Back Time" as it's held on the night that the clocks go back. There's loads of other activities that Daniel can take advantage of in his stay at the resort, but this one is the one that everyone gets excited about.

Design a poster for the "Back in Time" disco. The theme allows for great fancy dress opportunities, the music would cover a wide range of decades and genres too so would appeal to a wide audience...

Or maybe a poster advertising the Resort itself. Think about the facilities available and what kind of people would be likely to go to Leisure World...
